# BRIDGETOWN

## UNESCO World Heritage Site:

Bridgetown and its Garrison were designated a UNESCO World Heritage site in 2011. This recognition highlights its historical significance and well-preserved colonial architecture.

## Oldest City in Barbados:

Bridgetown is the oldest city in Barbados and has been a major port since the island's early settlement in the 17th century

## Vibrant Nightlife and Cafés

Bridgetown is a vibrant cultural hub where visitors can experience traditional Bajan music, dance, and cuisine. The city hosts festivals such as Crop Over, a lively celebration of Barbadian culture and heritage.

# The Country Barbados

## Weather:

Enjoy Barbados' tropical climate with warm temperatures year-round, perfect for beach activities and outdoor adventures.

## Landscape:

Explore stunning white sandy beaches, lush gardens, and natural wonders like Harrison's Cave. The island's east coast offers rugged cliffs and scenic hiking trails.

## Adventure Tourism:

Thrill-seekers can surf at Soup Bowl, kiteboard at Silver Sands, or zip-line through tropical forests. Scuba diving and exploring underwater caves are also popular

## Culture :

Barbados offers a vibrant blend of Caribbean traditions, music (like calypso and reggae), and flavorful cuisine. Festivals like Crop Over celebrate the island's rich heritage.

# Bridgetown International University

Barbados, a Caribbean English-speaking island nation in Caribbean, is home to Bridgetown International University, School of Medicine (BIU), a well established and rapidly evolving private medical university. The university was founded in 2017 to provide quality, affordable medical education to aspiring doctors, raise global healthcare professionals, and contribute to the betterment of health for all.

- ✓ Fastest-growing private medical universities.
- ✓ University-managed food and accommodation.
- ✓ Quality and affordable medical education for future doctors.
- ✓ The MD Program strictly adheres to USMLE criteria.

## Our Mission

Bridgetown International University aims at identifying the potential of all students and offering superior quality medical and other health related education. It will redefine the scope of medicine in the development of the world by developing it's core competencies. It will further teach and practice a model of medical education with the ultimate objective of emerging as a transformational agent in the world of health care.

## Our Vision

Bridgetown International University holds a vision of making the institution emerge as one of the leading universities in the field of medical education, training and research. It will be well focused on enhancing new dimensions in the field of health and medicine. It commits itself to highest quality medical knowledge, skills and competencies and to providing maximum exposure to the future doctors of the world.

**Dr. Ganapriya Kancherla**

**President of Bridgtown International University**

BIU has developed a reputation for quality. Our curriculum, faculty, learning approach, and student guidance reflect this greatness. These traits have helped our medical graduates make a significant impact. We believe there is always more to learn and achieve. Therefore, never lack ambition, since it drives you. Remember that everyone has the right to healthcare, and while you study to become a doctor, this will be one of the most critical moral, ethical, professional, and emotional concerns you will face. At the Medical Committee for Human Rights Convention in Chicago in March 1966, Martin Luther King Jr. said, "Of all the forms of inequality, injustice in health care is the most shocking and inhumane." BIU aims to develop doctors who will work to end inequity and injustice. The COVID-19 epidemic has changed many things in 2020. We must enhance our judgment, reaction, and communication to change someone's life. Be resolved to face challenges on your terms and bring about change to make an amazing contribution to society. Being relevant will help you enhance others' lives. Never be satisfied with your work—it's never finished. If you are dedicated to your passion and feel you have lived well, you can contribute more each day. Be curious, adaptable, and willing to take chances to take advantage of new possibilities and research. Ultimately, you should know who you want to be, not what you want to be. While medicine is challenging, it is still rewarding and worthwhile. You must advance to progress. Real life is harder, so prepare for it. BIU sincerely believes in maximizing talent and the potential of a dream. This has given everyone opportunities, which is our true success. We strive to be the finest educators with enthusiasm and devotion. Welcome to BIU, and start your career in medicine and health.

**Dr. Margaret Colden**

**Executive Dean**

As Executive Dean at BIU, I work with our talented faculty and staff to provide a rewarding academic experience for the students by ensuring exposure to up-to-date content reinforced by robust technologic and academic support. For those individuals contemplating medical school, we would be happy for you to join our BIU family!

**Dr. Muhammad Ranjha**

**Chief Executive Officer - LIVE STAR LINK**

Empowering the Future of Students Through Global Education In My 30 Years international Experience I come to know that our students need only Global Education. In today's rapidly evolving world, education is more than a foundation — it is a bridge to opportunity, innovation, and understanding. At the heart of every thriving society is a commitment to learning, and at the core of our mission is the belief that quality education should be accessible to all, regardless of geography, background, or circumstance. Global education is not merely a concept; it is a necessity. In an interconnected world, we must prepare learners to become not only skilled professionals but also informed global citizens. This means fostering critical thinking, cross-cultural understanding, and a lifelong commitment to learning. As CEO, I see firsthand the transformative impact education has — not only on individuals, but on communities and economies. Whether it's a young student in a rural village accessing digital classrooms for the first time or a professional re-skilling in a new industry, education empowers change. We remain committed to partnering with educators, governments, and organizations around the world to close the education gap. Our vision is bold: to help create a world where learning is truly global — inclusive, innovative, and future-ready. Together, let us continue investing in education that uplifts, connects, and inspires across borders. The future depends on it.

# MED Educare Marketing Management LTD.

MedEducare Marketing Management LLC (MEC) is a distinguished global conglomerate that encompasses a diverse portfolio of companies, each dedicated to excellence in education, healthcare, technology, and beyond. As a parent entity, MEC houses and operates multiple institutions and enterprises that specialize in higher education, medical training, infrastructure development, digital solutions, and student mobility services.
